--------------------------	------------------------------------------------------------------------------------------------------------------------------

D. Please refer to the messages on a pop-up window when you encounter an error while uploading the binary file.

## 2) Security Test

An Application in zip\* format will automatically converted into an .oap file after going through DRM (Optional) selection, API certification, and Code signing.

A. To check the status of a certain process: Seller Office > Applications > My Applications > Pre-Certification, you may check whether the final step in the registration process is complete (In Process)
